Athletix Products™ Problem Solvers

If the task of properly cleaning and maintaining your health club and wellness equipment is a problem, then the scientists at Contec® have created a solution. The team at Contec works directly with health club professionals and fitness equipment manufacturers to identify key cleaning issues. It's these issues, if left unresolved, that can lead to lost revenue, dissatisfied club members, unnecessary repairs and/or a staff that devotes too much time to maintenance.

The Athletix Products line is the solution for your members and staff, and was specifically developed for health clubs, wellness centers and athletic equipment. Athletix Products are effective, affordable, easy to use, and safe for use on heavy-duty as well as delicate equipment.

Identified in the field

One of Contec's top executives was working out at a club one day. After watching members look for the spray bottle and towels to clean up their left-behind perspiration, he realized that Contec currently utilized a concept that was better and more convenient than a spray bottle and towel. In turn, a new product line was born, starting with the presaturated Athletix™ Equipment Cleaner wipes.

Identified by equipment manufacturers

Equipment manufacturers dislike the fact that many warranty claims are filed as a result of poor maintenance. These manufacturers have come to us with their most difficult warranty issues and we have responded with problem-specific solutions — fewer warranty claims, less downtime on the equipment, and happier club members.

Solved in the lab

Contec has world-class research and development facilities, staffed by top-notch scientists and chemists, known as the Science of Clean Team, who have already solved many of the problems facing health club owners and fitness equipment manufacturers. Once a problem is identified, Contec's Science of Clean Team quickly responds with an innovative solution.

Produced by Contec, Inc.

All products found in the Athletix Products family line are produced by Contec, Inc on premises in Spartanburg, SC or in contract facilities to our exact specifications. We pride ourselves on having state-of-the-art production equipment, warehousing and prompt delivery of quality products. Our facility is ISO 9001:2000 certified and not only produces products for our Athletix Products brand but also for biomedical, pharmaceutical, medical device, microelectronics, optics, semiconductor, data storage, automotive OEM, aerospace, and marine industries.

Problem

Equipment becomes sticky and stained with sweat, soiled from dirt dragged in on shoes, and slick from body oils — it's just not appealing for the next person to use.

Solution

Athletix™ Equipment Cleaner Wipes

- Presaturated wipes specifically designed to clean dirt, sweat and body oils from all surfaces of your health club equipment.
- Tested by leading equipment manufacturers and proven to be safe for vinyls, leathers, chrome, foam grips, rubber, painted surfaces, metal, and electronic displays.
- Neutralize odors that build up on soft surfaces and lay down a protective barrier against odor penetration.
- Variety of dispensing options for wall, floor and equipment mounting.

Proven by you and your manufacturers: Once analyzed in a lab environment, Contec's products are ready to be tested in the field. After the items undergo thorough testing by both health clubs and health club equipment manufacturers, they go back to the lab for modification based on field recommendations. From there, it's off to production.

Approved by the following:

Precor Incorporated

Wall-Mounted Dispenser

- Attractive, durable and sturdy.
- Simple design, easy to load.
- Easy for your members to grab a wiper and go.
- Comes with hardware for mounting unit on a wall.
- 9.25 x 9.75 x 13.5" (24 x 25 x 34 cm)

Accessories:

- **Wire Floor Stand:** Simple, stable design with a small footprint. Use with Wall-Mounted Dispenser (available separately). 13 x 13 x 40" (33 x 33 x 103 cm)
- **Acrylic Sign Holder:** Easily deliver messages to your members on proper use of the equipment wipes, a new class schedule or a sale at your pro shop.
- **Dispenser Pole Conversion Kit:** Allows you to easily attach our Wall-Mounted Dispenser to any support pole or piece of exercise equipment.

Dispenser Pole Conversion Kit

Wire Floor Stand & Acrylic Sign Holder

Bucket Dispenser

Stainless Steel Floor Stand

- Economical dispensing option
- Fits right in with a rugged, basic, bare-bones décor.
- Tough and Portable
- Comes with a handle so it can be placed where best utilized.

Accessory:

- **Stainless Steel Floor Stand:** Sophisticated looking and easy to load with a hole in front of stand for discarding wipes. Easy-access door for trash removal. Trash can included. 36" (91 cm) tall, 13.5" (34.3 cm) diameter, 28 lbs. (12.7 kg)

Problem

Dust and oil build-up creates grime on weight machine guide rods, making weight stacks chatter and bind. Machine users notice a “jerky” motion during their workout, and see the dirty guide rods.

Solution

Athletix™ Guide Rod Wipes

- Provides a one-step process to clean and protect guide rods while applying just the right amount of lubricant to prevent weights from sticking.
- Repels dust, reducing the need for more frequent cleaning.
- Ideal for use on guide rods, elliptical tracks, seat slides, and other sliding or rolling mechanisms.*

** Never apply any lubricants to handgrips, seating surfaces, pads, or friction surfaces such as flywheel brakes or resistance brakes.*

Problem

Overwhelming amounts of sweat during intense work-out sessions can produce corrosion and rust on equipment.

Solution

Athletix™ Corrosion Inhibitor

- Provides an anti-corrosion barrier on the hard surfaces of the equipment.
- Comes in a specialty applicator for precise application with little or no dripping or overspray.
- Off-peak routine application will help to protect the equipment against corrosion and rust and reduce warranty claims.

Problem

With so many patrons using wellness and fitness facilities, organisms including bacteria and viruses are left behind on the equipment and other commonly touched surfaces, resulting in elevated bio-burden levels and the potential for sickness.

Solution

Athletix™ Disinfectants

Sporicidin® Disinfecting Wipes and Solutions

- EPA registered in all 50 states and US territories.
- Broad spectrum disinfectants that kill STAPH, MRSA, VRE, plus many more organisms.
- Non Hazardous Chemistry for Equipment & Patrons – EPA Toxicity ratings “Very Low/Low.”
- O-Phenol, Alcohol, and Bleach free!
- Ready to Use solution.
- Available in presaturated wipe and solution formats.
- Continuous residual bacteriostatic activity for up to 6 months.*

*EPA Registration 8383-3
