

Athletix™ Equipment Cleaner Wipes

FAQs

Q: What are Athletix™ Equipment Cleaner wipes?

A: Athletix are specially formulated, disposable presaturated wipes designed to effectively remove dirt, oils, and sweat from exercise and athletic equipment. Leading health club equipment manufacturers approve Athletix Equipment Cleaner wipes.

Q: Are these similar to the commercially available facial and body wipes?

A: No. Athletix Equipment Cleaner wipes are specifically designed for use on equipment. Although Athletix wipes are skin safe, we do not recommend these wipes for wiping face or other body parts.

Q: Are the wipes safe for daily use on major equipment surfaces?

A: Yes. The Athletix Equipment Cleaner wipes are alcohol free and safe to use on vinyls, rubbers, chrome, painted surfaces, LCD screens, etc. without the fear of cracking and degradation. Remember, leading health club equipment manufacturers approve Athletix Equipment Cleaner wipes.

Q: Who uses Athletix Equipment Cleaner wipes and how often?

A: The Athletix wipes are safe to use by club members, maintenance staff, and also trained equipment support technicians. Equipment is the cleanest when it is wiped before and after each use.

Q: Is this product a disinfectant?

A: No. This product is **only** a cleaner and deodorizer. Please see the total line of Athletix Products for additional product offerings.

Q: How are the Athletix Equipment Cleaner wipes dispensed?

A: We currently have two types of dispensers for Athletix Equipment Cleaner Wipes – a center-pull dispenser and an economical freestanding bucket dispenser. The center-pull dispenser can be attached to a wall, a freestanding wire-form rack or a pole/equipment frame with all accommodating an optional instructional sign holder. The freestanding bucket has an optional stainless steel floor stand.

Q: What do Athletix Equipment Cleaner wipes replace and how are they used?

A: Replace the time consuming usage of spray bottles and towels with one presaturated Athletix Equipment Cleaner wipe. To use: Simply remove one wipe from dispenser, wipe down the surface of equipment, and discard the wipe in waste receptacle. We recommend that your members wipe the equipment prior to their using it to assure they are using clean equipment.

Q: Why is this product more beneficial than my current method of spray bottle and towels?

A: 1) Presaturated wipes eliminate the need for a member to locate the spray bottle and towels. 2) Athletix Equipment Cleaner wipes are designed as one-time use, disposable wipers. There is no chance of carrying dirt and germs from one piece of equipment to another if used properly. 3) No harmful overspray or strong odor when working out next to someone using the spray chemical. 4) No more mixing chemicals and filling bottles by your staff. 5) Higher club member satisfaction and membership retention.

Q: What if my members are already using a disinfectant spray? Why should I switch?

A: Although there is a need for disinfecting equipment surfaces in facilities, to be effective, most disinfectants must remain visibly wet on a surface for a minimum 10 minutes (impossible during high traffic times). This obstacle, coupled with the fact that disinfectants often contain aggressive, pungent solvents whose overspray can damage equipment, dictates that staff should do disinfection of equipment surfaces during off-peak hours. Why pay a premium for a disinfecting product and then not use it properly?

Q: Is there an odor with the Athletix Equipment Cleaner wipes?

A: No. We have specially formulated this product to be as odorless as possible, because we understand while working out breathing in harmful fumes and lemon scented products, when your body needs oxygen the most, is unthinkable!

Q: How are the Athletix Equipment Cleaner wipes packaged?

A: There are 700 wipers per roll and 2 rolls per case. Also available are 4 rolls per case and preloaded buckets.

Q: Are Athletix Equipment Cleaner wipes available to the general public?

A: Athletix wipes are available to health club facilities through authorized Athletix Products distributors. Athletix Equipment Cleaner wipes, along with other Athletix Products are available at your choice of authorized distributors. Visit our website, www.athletixproducts.com to find the Athletix Products sales representative.
